## VALUE PROPOSITION

---

I am an experienced and results-driven Dynamics 365 Business Central Consultant with expertise in implementing and optimizing Microsoft Dynamics 365 Business Central for businesses of all sizes. My proficiency spans across end-to-end implementation, configuration, customization, and integration, allowing companies to streamline their operations, improve decision-making, and drive business growth. I have successfully supported development, customization and configuration of Dynamics 365 Business Central financial system to suit the financial, reporting and grants management for a number of organizations. My approach focuses on understanding core business processes, identifying opportunities for improvement, and implementing scalable solutions that maximize the platform's capabilities while integrating technology.

---

## EXPERIENCE

---

### **Kenya Wildlife Conservancies Association**

Nairobi, Kenya

*Project Accounts Fellow*

Apr 2025- to Date

- I support financial management and administration of donor-funded projects, including budgeting, expenditure tracking, financial reporting, and compliance with organizational and donor requirements.
- I contribute to strengthening financial controls, audit preparation, grant accountability, and budget monitoring processes to enhance operational efficiency and transparency across projects.
- I collaborate with program teams, sub-grantees, and external stakeholders in project planning, reporting, and implementation while supporting process improvement and financial systems enhancement initiatives.
- I assist in preparation of management reports, data analysis, and performance tracking to support informed decision-making and effective utilization of project resources.

### **Iansoft Technologies Ltd**

Nairobi, Kenya

*Dynamics 365 Business Central Consultant*

Jan 2022- Oct 2024

- I led end-to-end implementation and configuration of Microsoft Dynamics 365 Business Central, ensuring alignment with organizational processes and employing finance knowledge and business understanding to analyze financial management business requirements, designing functional solutions and implementing ERP systems that align with the organizational financial needs.
- I configured and customized the system, creating tailored reports and dashboards that delivered actionable insights for decision-making. I configured and optimized core organizational modules.
- I supported data migration efforts, ensuring smooth transition from legacy systems to Dynamics Business Central. I designed and delivered end-user training sessions, ensuring effective transition and adoption of the new ERP system across organizational departments. I also provided ongoing post-implementation user support, troubleshooting issues, and performing system upgrades.

### **Infotrak Research Company**

Nairobi, Kenya

*Data Specialist Associate*

May 2021-Nov 2021

- The firm conducted social and market researches and my work was to consolidate a summary report while managing the data collection agents while ensuring they observe the set deadlines and standards.
- I would often conduct audit visits to ensure standards were being upheld during data collection. I also ensured budgetary control and managed the human resources for each project.

**Stepwise Daproim Kenya**

Nairobi, Kenya

*System Migration Consultant*

Dec 2020- Apr 2021

- I worked closely with clients to understand their business processes, requirements, and goals to help configure and customize Dynamics NAV to match the client's operational workflows. I was responsible for gathering requirements, configuring the system, and ensuring it integrates smoothly with other business applications.
- I provided ongoing support to users, helped businesses leverage the full potential of Dynamics NAV to enhance efficiency and optimizing processes to ensure clients achieve their goals.

---
