I found out about the program through...
A friend

My Fellowship role:
Evidence, Policy and Advocacy Fellow

Fellowship organization: Financing Alliance for Health

Organization's mission:

Financing Alliance for Health partners with governments on all steps of financing to strengthen and sustain health systems; leveraging primary healthcare to attain universal health coverage.

My background:

I am a Doctor of Pharmacy with experience in community health and project management, across the non-profit and health regulatory sectors in Nigeria.

I joined the LGT Impact Fellowship because...

I want to make a meaningful impact and ensure everyone has access to their basic needs. Through my work in the non-profit sector, I have supported underserved communities by creating opportunities that improve lives. This Fellowship gives me the platform to take this work to a larger scale, by contributing to policies that shape how people, especially the most vulnerable, access essential healthcare.

In my Fellowship role I will...

Work to generate evidence and advocate for policies that strengthen health financing for community-led health systems and support countries in advancing Universal Health Coverage.

I am very excited about...

Working with an organization focused on advocating for government health policies that lead to sustainable health outcomes and reduce the financial burden of healthcare on people.
